

Coding Brigade BVRIT

Coding Brigade BVRIT is a technical club through which students can be given the opportunity of facing various coding challenges every month and this can help them to know their area of expertise/ weakness and helps them to emerge themselves as a better coder. Coding Brigade BVRIT plans activities every month or once every two weeks depending on the academic schedule in which all the interested students participate. These activities are free of cost and don't put any burden on the students. These activities include mostly coding competitions' along with some other interactive sessions. These coding competitions will help the students to know their current status of coding skills and helps them to know the areas in which they lag and improve them so as to enhance their coding skills.

Coding Brigade BVRIT is a community of students highly enthusiastic about coding, ethical hacking, Web Designing and all other aspects of programming. We started as a team of 13 under the guidance of our faculty coordinators **Dr. L. Pallavi, Mr. S. Srinivasa Rao, and Mr. D. Jagadeesh**. Currently we are team of 16 members divided into 3 sub teams to look after different activities of club under the guidance of same faculty coordinators. We thank the person who offers us constant support and encouragement is **Dr. Ch. Madhu Babu**, Head of CSE Department.

CBB (Coding Brigade BVRIT) has completed its 2 years. In the light of this occasion, we would like to bring to you *FIT - Female in Technology*. It is an exclusive club for female students which keeps you updated with the latest information on internship opportunities, mentorship programmes, scholarships, FTE roles and Hackathons. It has been established in 2019 and we would like to bring it to you today physically on the 2nd anniversary of CBB.

CBB - FIT has also collaborated with *Google Developer Student Club Wonder Of Wonders (GDSC WOW)*. We are looking forward to working with *Google's Women Techmakers Membership*.

Main motto of Club is to improve competitive culture among students. As a team we are highly motivated towards making coding as sport than that of an academic subject. We plan and organise different every month which may include events like coding contest, Hackathons, Workshops. Etc. Every event is planned to help students improve their skills and to get familiar with industry relevant coding culture. Not only coding events as team we also focus on events like quizzes, design contests, presentations. Hoping that all these events help students in building skillset which is very much important in their ever-relevant careers.

Coding Brigade BVRIT took its form as a physical club from Idea on 29th January 2020. A. Akhil is the founder of the club. He taken forward the idea and presented before the college. With the support from our dear faculty coordinators **Mrs. L. Pallavi, Mr. S. Srinivasa Rao, and Mr. D. Jagadeesh** and our dear Hod sir **Dr. Ch. Madhu Babu**. The idea was presented before our respected principal **Dr. K. Lakshmi Prasad**. With the positive response the club got all permission required to start its Journey. On 29th Jan 2020, in the presence of **Prabhash (MENORAH AI) & Dharma (Dhapps)** and two hundred students of BVRIT narsapur. Club started its official functioning.

Few Students in CBB are Campus Ambassadors in CodeChef, Internshala, HackerEarth and CodingNinjas. On Oct 13 2021, We are keeping MoU with BrainOVision.

From the date of inauguration. CBB has organised eleven events which includes hackathons, Coding contests across different competitive programming platforms, Workshops, Webinar and Quizzes. Few events were organised national level whereas few events were planned specifically for BVRIT students. Till date club has registered 6000+ interactions for all the events.

Events organised till date

S.No.	Dates	CBB Events	No. of Students Participated
1	1/29/2020	CBB Inauguration	200
2	2/15/2020	Intra College Coding Contest - TWO ROUNDS using HackerRank Platform	246
3	2/19/2020	One Day workshop on "Problem Solving" by CodeChef Hub-CBB team	60
4	24-02-2020 to 26-02-2020	Three Days workshop on "Basic Programming using Python" by FOSSEE IIT-Bombay	102
5	02-02-2020 to 03-02-2020	Two Days workshop on "Advanced Python" by FOSSEE IIT-Bombay	36
6	08-06-2020 to 10-06-2020	Inter College Coding Contest - THREE ROUNDS using HackerRank Platform	186
7	10-07-2020 to 12-07-2020	National Level Coding Contest - THREE ROUNDS using HackerEarth Platform	1002
8	01-08-2020 to 23-08-2020	Online Hackathon @Intra College Level	161
9	27-09-2020	Game of Codes Coding Contest - ONE ROUND using CodeChef Platform	1083
10	24-01-2021	CODE 2021 Coding Contest - ONE ROUND using CodeChef Platform	1755

34	17-02-2023	Interactive Session “Classroom to Corporate” by Sridhar Veeramalla (Program manager at Infosys)	200
35	17-02-2023	Interactive session “Start Software Development with a click” By RunCode	140
36		Solving For India – Hackathon Series	200

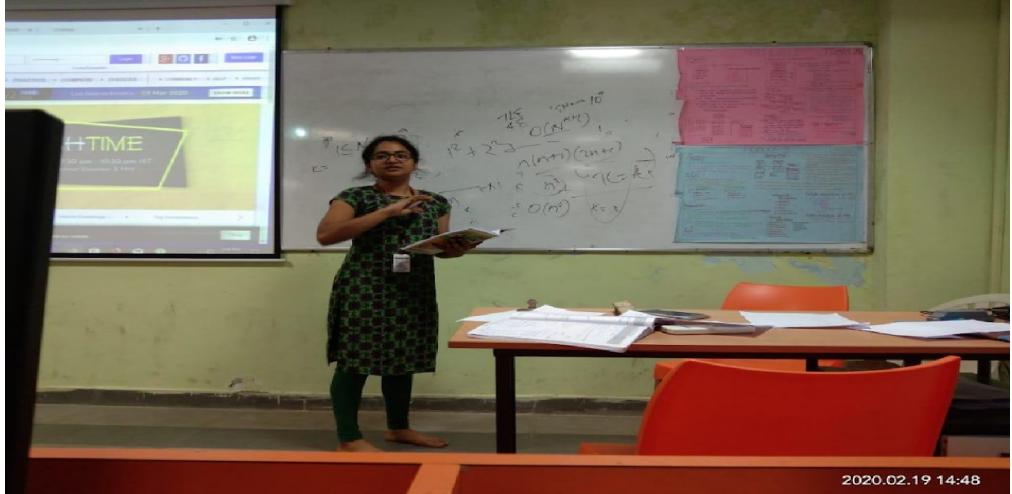

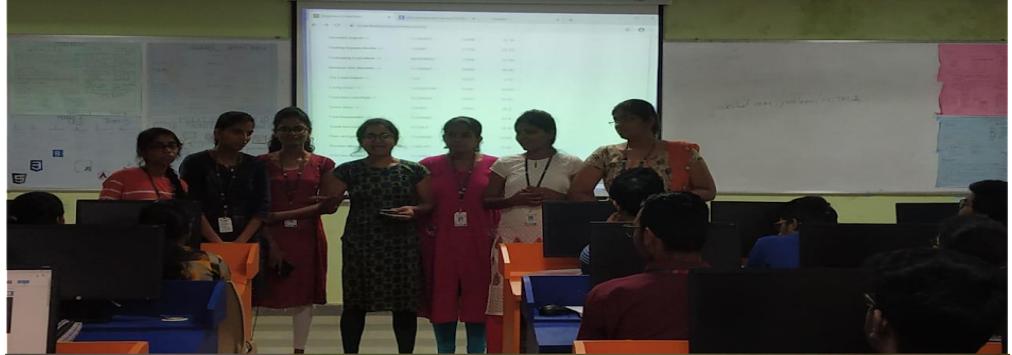

Events Organised

1. Intra College Coding Contest - TWO ROUNDS using Hacker Rank Platform:

The very first event is organised on 15th February 2020. Intra college coding contest is of two rounds. All 246 registered students participated and top 60 students are short listed for round 2. Round 2 of Intra college coding contest is organised on 22nd February 2020. On the same day top 10 performers were awarded with exciting prizes.

2. One Day workshop on "Problem Solving" by Code Chef Hub-CBB team:

On 19th February 2020 workshop on Problem Solving. Competitive Programming Basics Workshop is organised to help and encourage programming culture among the students. Here we mainly focused on major issues faced by a new programmer during online contests. Major issues like time out errors and runtime errors are very much new to new programmers. Event mainly focused on helping beginners learn about root causes for errors and how to avoid those errors. This event is organised in collaboration with Code Chef.

3. Three Days workshop on "Basic Programming using Python" by FOSSEE IIT-Bombay:

Three days workshop is organised from 24th February 2020 to 26th February 2020. Professors from IIT were invited to organise workshop in association with FOSSEE IIT-Bombay. Hundred students attended the three-day workshop to learn new skills. All participants are awarded with Certificates from IITK on the final day of workshop.

4. Two Days workshop on "Advanced Python" by FOSSEE IIT-Bombay:

Two days' workshop is organised as continuation to previous workshop organised on 24th February 2020. On 2nd March 2020 and 3rd March 2020 same professors from IIT organised the advanced python workshop. All participants are awarded with Certificates from IITK on the final day of workshop.

5.

Inter College Coding Contest - THREE ROUNDS using HackerRank

Platform: This was the second coding contest arranged and was held from 8th June 2020 to 10th June 2020. A total of 186 students participated in the contest. Each round was held on each successive day with the winners being announced on the last day and gifted exciting prizes.

6. National Level Coding Contest - THREE ROUNDS using HackerEarth Platform:

Building up on the success of the previous contest this time we went for a national level contest in collaboration with HackerEarth organized from 10th July 2020 to 12th July 2020. A whopping 1002 participants registered themselves for the contest.

7. Online Hackathon @Intra College Level:

Mr Prabhash (MENORAH AI) alumni of BVRIT-N provided us a opportunity to collaborate with Menorah AI. They choose us as their recruitment partner to recruit Interns for their company. They provided opportunity specially for BVRIT students. 161 students came forward to participate. Where one student got internship opportunity and 10,000 cash price after successfully completing 21 days hackathon. All participants are provided with participation certificates.

8. Game of Codes Coding Contest - ONE ROUND using CodeChef Platform

Moving up with our objectives we arranged another contest in collaboration with Codechef. It was organised on 27th September 2020. This contest witnessed 1083 participants competing amongst themselves for the position of top coder. The contest had a single round.

Register at
<http://tiny.cc/CBB-GoC>

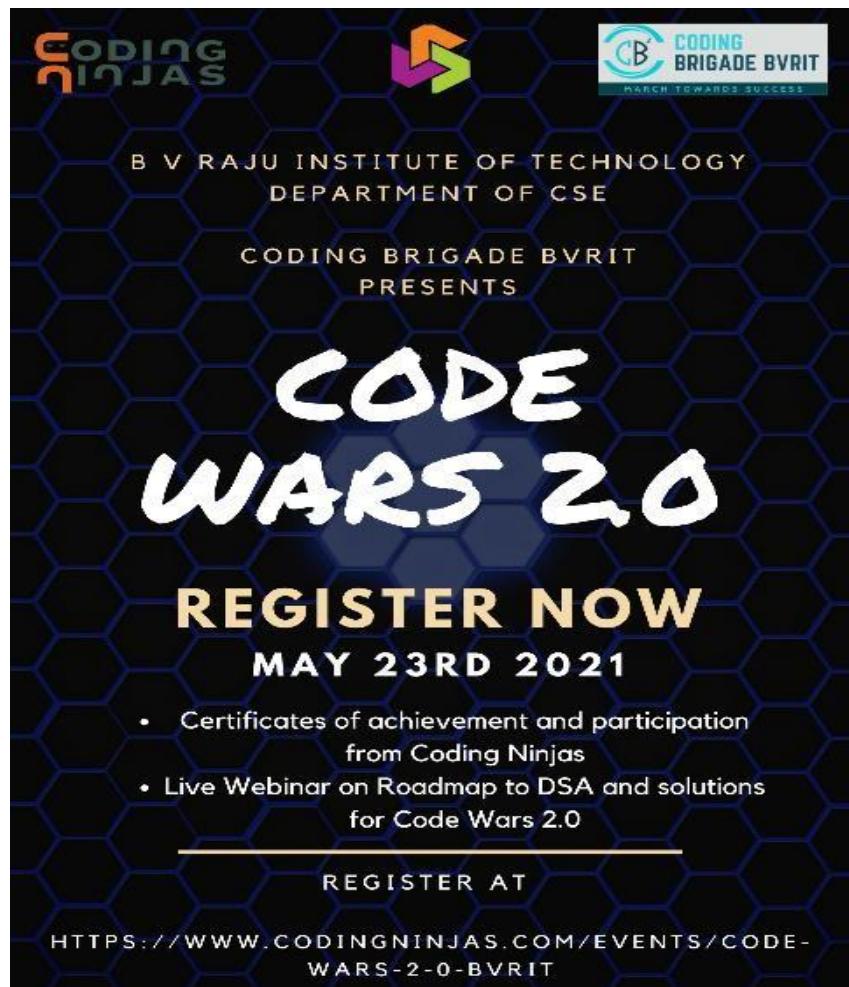

9. CODE 2021 Coding Contest - ONE ROUND using CodeChef Platform

Keeping the success in previous contest we thought of welcoming new year with new contest. We planned a single round competition with our platform partner CodeChef on 24th January 2021. Where we got huge response from across the country with 1755 participants. All the participants competed with high spirits where top five who performed exceptionally were awarded with Achievement certificate.

10. CODE WARS 2.0 - One Coding Round & One Webinar Round using Coding Ninjas:

Looking forward for new collaborations. We planned a event to help prefinal and final year students to perform well in their placements. In association with Coding Ninjas organised a One Coding Round & One Webinar Round using Coding Ninjas platform on 23rd May 2021. This event is organised after a huge academic gap because of semester exams. So It registered moderate number of participants of 608 participants with in 4 days span.

11. SMART HACKS 2020-21 MCQ Challenge using EICT Academy IIT-Kanpur:

In association with EICT Academy IIT-Kanpur quiz round is organised for freshers who are new to technologies. On 12th June 2021 National level quiz contest with 553 participants. IITK provided certificates for all students.

12. Intra College Level - THE POSTER CONTEST :

In association with EICT Academy IIT-Kanpur quiz round is organised for freshers who are new to technologies. On 12th June 2021 National level quiz contest with 553 participants. IITK provided certificates for all students.

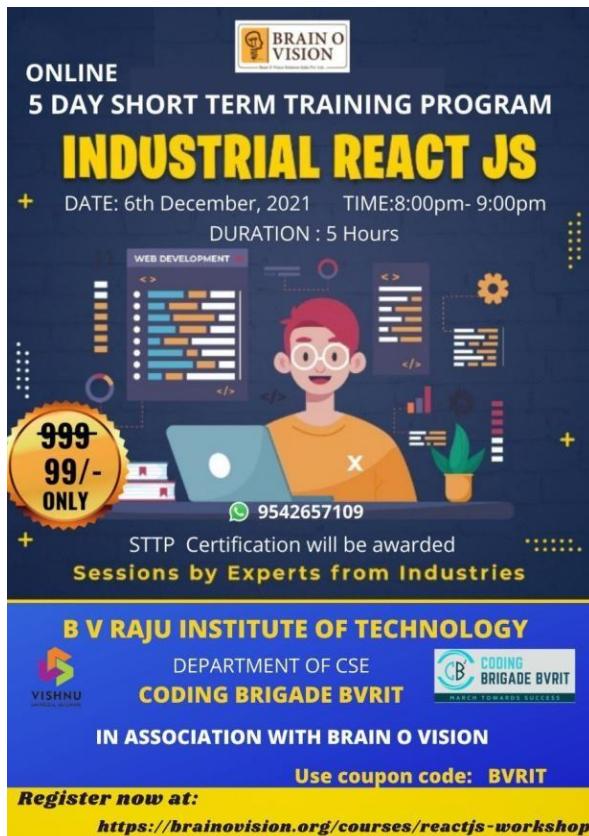

13. National Level – CODE JAM :

In association with BVRIT-CSI Student Chapter, One coding Round using Coding Chef.

14. Online 5 Day Short Term Training Program (STTP) on REACT JS

React JS is a modern framework in the world of Web development. Written in Javascript, it is a backend framework. Conducted on 6 December, 2021, this event provided an industrial exposure to the student attendees by Industrial experts and STTP Certifications were presented to the attendees.

15. SMART HACKS 2021-22

Coding is generally perceived as a hard subject by many computer aspirants but it is crucial to become an expert in computers. Therefore, Coding Brigade BVRIT, in collaboration with IIT Kanpur conducted a two phase **SMART HACKS 2021-22** event where the first phase was a quiz on Programming in C & C++, an exam and Second phase was a Mega Finale at IIT Kanpur for the top performers of phase 1 who were also provided with e certificates. The finalists received 1.25 Lakhs as prize money.

17. Intel OpenVINO Toolkit Workshop

AI, DL and Computer Vision are currently revolutionizing the field of computer science. Every computer science expert is expected to have a basic intuition about these topics. A OpenVino Workshop was organized on 21 January, 2022 by Intel in collaboration with Team CBB on the topics of AI, DL, OpenVINO toolkit where the course certification was provided to the attendees. OpenVino is a computer vision toolkit.

18. Coding Insight

Problem solving is the key component of every field. Computers have different perception of problem solving mathematics and innovative logics. To impart logical thinking to the students, **Coding Insight** was conducted 29 January, 2022 where quiz and other interactive events were

conducted.

19. CBB 2nd Anniversary

Commemorating a successful biannual completion of insightful and informative events, Team Coding Brigade BVRIT celebrated its 2nd anniversary on 29 January, 2022

20. BrainOVision Free Workshop - HTML,CSS and JAVASCRIPT

HTML, CSS and Javascript are the languages used for web development. A free workshop on three languages were conducted by Team CBB from 15 March, 2023.

21. PragyanAI Workshop - Deep Learning – Keras & Pytorch Programming

Deep Learning is recently regarded as the crucial component of the modern computer science. Coding Brigade BVRIT, in association with PragyanAI conducted sessions on “Deep Learning- Keras and Pytorch Programming” from March 14, April 1, 2022.

The poster features the logos of BV Raju Institute of Technology (VISHNU Universal Learning) and PragyanAI. It includes text indicating affiliation with JNUTH, AICTE approval, NBA accreditation, and NAAC accreditation. The event is organized by the Department of CSE and Coding Brigade BVRIT in association with PragyanAI. A large orange 'FREE' tag is on the left. The workshop is described as '15 Days -15 Sessions Free Workshop on "Deep Learning - Keras & Pytorch Programming"'. The trainer is Mr. Satish Ambesange, CEO of Pragyan-Smart AI, with 18+ years of industry experience at Intel, Samsung, Philips, etc. The eligibility criteria mention basic knowledge in Python programming. The website for registration is <https://forms.gle/LTz3QNF4oPBkSz86>. Contact numbers for Sateesh Ambesange (+91 9741007422) and Basavaphabhu (+91 9738416480) are also provided.

Coding Brigade BVRIT

It was an incredible session full of insightful discussions, valuable takeaways, and ofcourse, plenty of fun and excitement. We are truly grateful to have had this opportunity to learn from one of the industry's best and brightest minds Mr Sridhar Veeramalla Garu.

Thank you to everyone who made this event such a huge success. We couldn't have done it without you!

34. Interactive session “Start Software Development with a click” By RunCode

RunCode is a cloud coding platform company. It facilitates the developers to code on its platform free from any hardware and infrastructural requirements. An interactive session “Start Software Development with a click”

35. Solving For India – Hackathon Series

GeeksForGeeks (GFG) is partnering with Google Cloud and AMD to host a Pan-India Hackathon, where 100 colleges from all across India will participate. Students will compete within their Institutes in online hackathons, using Google Cloud to build innovative projects based on a chosen theme. The top 3 teams from each Institute will then move on to showcase their projects at regional level, with the top teams from each region moving on to the national level for the final showcase.

CBB Student Research Club (SRC)

Students Research Club (SRC) involves the academic fraternity in conducting various workshops, seminars, conferences within the department.

The following objectives will highlight the importance and purpose of **Students Research Club**.

Objectives:

- To motivate students to involve in research activities.
- To guide students for project dissertation.
- To understand students the usage of library e-resources.
- To co-ordinate workshops, symposium, conferences and guest lecturers.
- To conduct inter-class competitions and events such as poster presentation, project presentation, paper presentation, case-study presentation, research-quiz and so on.
- To encourage Students to publish articles, release Handbooks.
- To encourage Students to participate in Workshops, Symposium, Conferences and present papers.
- To showcase the list of student publications.
- To publish Online Journal on Quarterly basis.
- To provide research consultancy services.
- To report and record the research activities on real time basis.

The Student Research Club is also responsible for informing students about intercollegiate research opportunities and encouraging students to publish original work in leading journals and presenting at reputed conferences. The club also organizes Paper Presentation, Academic Writing workshops in order to writing and analytical skills of students.

This SRC aims to nurture research culture in our department by promoting research in newly emerging and challenging frontier areas of Engineering, Technology, Science and Humanities. It encourages the students to undertake the research in newly emerging frontier areas including multidisciplinary fields.
